Overview

As a final-year Computer Science and Engineering student, I am seeking an internship opportunity to apply my academic knowledge in a practical environment. I am eager to learn, adapt, and contribute effectively while growing professionally.

Skills

- **Programming Languages:** C, C++, C#, Java, JavaScript, Python
- **Web Development:** HTML, CSS, JavaScript, PHP
- **Database:** MySQL, Oracle (PL/SQL)
- **Tools & Platforms:** Git, GitHub, VS Code
- **Soft Skills:** Hardworking, Quick Learner, Teamwork, Responsibility

Projects

Blood Donation Management System

[GitHub](#) | [Live Demo](#)

PL/SQL-based system using stored procedures, triggers, and cursors with normalized schema and automated reporting.

Cyber Shop Management System (Java)

[GitHub](#)

Java-based object-oriented programming project implementing shop management functionalities.

Bakery Shop Management System

[GitHub](#)

Web-based bakery management system developed using HTML, CSS, JavaScript, PHP, and MySQL.

Software Engineering Project

[GitHub](#)

Software engineering course project including system design documentation and project analysis.

Garments Factory Management System

[GitHub](#)

Database management project designed for garments factory operations using SQL and database concepts.

An Explainable Bayesian-Optimized Ensemble Learning Approach for Luxury House Rent Forecasting in Bangladesh

Thesis

Developed a machine learning model to predict house rent using real-world data from Dhaka, applying ensemble learning with Bayesian optimization to improve accuracy. Integrated Explainable AI techniques (SHAP, LIME) to enhance model interpretability.

Education

B.Sc. in Computer Science and Engineering

American International University–Bangladesh (AIUB)

May 2022 – September 2026 (Expected)

Languages

Bangla (Native), English (Fluent)
